Company profile	<p>Schulthess Maschinen AG manufactures washing machines and dryers for private use, apartment buildings and commercial use. The machines are developed and manufactured in Switzerland. The hallmarks of Schulthess are quality, technology and innovation.</p> <p>Special attention is paid to avoiding ecological/environmental impact and ensuring production processes are safe.</p>
Company history	<p>As a pioneer in his field, Schulthess developed the first manual washing device in 1904. More than 60 years ago, he then developed the first ever washing machines for domestic use in Europe.</p>
Production site	<p>Schulthess machines are developed and manufactured with great pride and commitment in Wolfhausen, in the "Zurich highlands".</p>
R&D	<p>The Schulthess Research & Development division is based in Wolfhausen. This division focuses on market requirements and demands, channelling these insights into technology, ecology and convenience.</p>
Schulthess machines	<p>Schulthess machines are market leaders with regard to quality, state-of-the-art technology, user-friendliness, low environmental impact and design.</p>
Innovation	<p>Schulthess has mastered the art of delivering impressive innovations which make life easier.</p> <p>3D-Washing, for example, brings a new dimension to the task of laundry. Specially shaped and ingeniously arranged drivers wash laundry to perfection and ensure fabrics retain maximum quality and value. Even better results and considerable savings with regard to time, electricity and laundry detergents. With the front or top operating panel – a world first – customers can choose for themselves whether to operate their machine from the front, in the customary manner, or from the top.</p>
Quality	<p>Schulthess is dedicated to quality. Even in places where it remains unseen. In Schulthess washing machines, for example, the washing liquor tank is made of top quality chromium steel – not just plastic.</p>

Commercial use	<p>Schulthess is market leader for commercially used machines. Primarily, Schulthess caters to hotels and restaurants, homes, hospitals and public authorities. On the domestic market in Switzerland, washing technology by Schulthess Maschinen AG caters to all market segments.</p> <p>International sales focus on customers from industrial sectors.</p>
Sales	<p>Depending on the customer segment in question, machines are sold via specialist stores (plumbing supplies, electrical retailers and wholesalers) or via direct sales.</p>
Schulthess service	<p>Schulthess upholds a close-knit service network covering all of Switzerland. More than 100 qualified service technicians are deployed. Via the 24/7 hotline (0844 888 222), customer service can be arranged swiftly and straightforwardly. Schulthess also offers a 24-hr service for apartment buildings and commercial customers.</p>
Schulthess warranty	<p>Schulthess offers a 2-year guarantee on the correct functionality of its machines, starting from the date on which they are first put into operation.</p> <p>During this time, Schulthess will correct – free of charge – any defects or breakdown caused by faulty materials or manufacturing errors. Schulthess even provides a 20-year guarantee on the chromium steel washing liquor tank.</p>
Certification	<p>ISO 9001 ISO 14001 Reduced CO₂ emissions (EnAW, Energy Agency for Industry, voluntary climate protection)</p>
